

# Is Your Data Safe?

## Developing a Security Awareness Program in 4 Easy Steps

1. Build awareness and leadership support
2. Complete a risk assessment and data inventory
3. Develop an incident response plan
4. Provide continuous and quality training through AETN ArkansasIDEAS

## “Preparing

education professionals with  
best practices to **protect** their  
colleagues and students in a  
**digital world.”**

**“95%** of security breaches  
are caused by **human error.”**

- IBM Cyber Security Index

## Security Awareness Training

**ADE** has partnered with **AETN ArkansasIDEAS** to  
provide continuous and quality security awareness  
training to schools and districts. Training  
modules can be accessed at  
**ideas.aetn.org.**
